Work experience

Rainbow

Frontend Developer

Developed the initial prototype of RainbowKit and made little improvements to the rainbow.me website.

July 2021 - Jan 2022

Genie (acq. by Uniswap)

Frontend Developer

Built a major part of the web app, including the homepage and NFT details page. I have also helped to build the wallet connection UI.

Jan 2022 - Jun 2022

Fleek

Backend Developer / DevRel

Integrated ENS into the platform (GraphQL, SDK and CLI) and contributed to the GraphQL API. Built the PWA starter template.

June 2023 - Nov 2023

Your company?
